

VAIBHAV TRIPATHI

MOBILE ARCHITECT - Mobile Platforms

+91-8310474494 | vaibhav.tripathime@gmail.com | Bengaluru, India
[linkedin.com/in/vaibhav-tripathi-9231b21b7](https://www.linkedin.com/in/vaibhav-tripathi-9231b21b7)

IMPACT SUMMARY

- 15 years architecting iOS/Android platforms for T-Mobile (15M+ devices), Ford Motor Company, TATA Group
- Worked on 10+ apps across iOS and Android, delivering end-to-end for brands including McDonald's India (1 Cr+ downloads), Michael Kors, Tanishq (4.6 rating)
- Led teams of 15+ engineers • Reduced DoS attacks 70% • Improved ratings 3.5→4.5+ • Cut critical bugs 65%
- Expert: Swift, Kotlin, Clean Architecture, SwiftUI, Jetpack Compose, MVVM, Reactive Programming

TECHNICAL EXPERTISE

Languages: Swift • Kotlin • Java • Objective-C • C/C++

Architecture: Clean Architecture • MVVM • MVI • Domain-Driven Design • Modular Systems

Modern Stack: SwiftUI • Jetpack Compose • Combine • Coroutines/Flow • RxJava • Jetpack Components

DevOps: Jenkins • Azure • Bitrise • Git • Unit Testing (Quick, Kotest) • Performance Profiling

PROFESSIONAL EXPERIENCE

STAFF ENGINEER - MODULE OWNER | T-Mobile Diagnostics Platform

GlobalLogic (Hitachi Group) 2024 - Present

- Designed and built 3 Android SDK modules from scratch for a diagnostics platform spanning 15M+ devices — covering no-coverage zone detection, satellite connectivity tracking, and network throughput measurement
- Resolved critical production bugs including ANR crashes, race conditions, and data integrity issues; refactored core infrastructure with Hilt DI and coroutine-safe concurrency

SOLUTION ARCHITECT | Ford Credit Mobile Platform (iOS & Android)

GlobalLogic (Hitachi Group) 2023 - 2024

- Drove mobile architecture strategy for Ford Motor Company's financial services (Kotlin, Swift, MVVM, Jetpack Compose, SwiftUI)
- Established technical governance, code quality standards, and architecture review processes across engineering teams
- Mentored senior engineers on advanced patterns: reactive programming, clean architecture, platform best practices

SENIOR ENGINEER | Michael Kors (iOS & Android)

GlobalLogic (Hitachi Group) 2022 - 2023

- Delivered end-to-end mobile application for Michael Kors across iOS and Android platforms
- Implemented Play Integrity API & app attestation → 70% reduction in DoS attacks

TECHNICAL ARCHITECT | Tanishq Jewellery (TATA Group)

Robosoft Technologies (TechnoPro Holdings) 2020 - 2022

- Architected India's premier jewellery e-commerce platform (10L+ downloads) using Clean Architecture & Domain-Driven Design
- Drove in-app review strategy → rating increased 3.5 to 4.5+ (impacting user acquisition & retention)

SENIOR MOBILE ENGINEER & TECH LEAD

Robosoft Technologies (TechnoPro Holdings) 2009 - 2020

- Delivered end-to-end apps for brands including McDonald's India (1 Cr+ downloads), World of Titan, Zee News, Dainik Bhasker; contributed features and modules for ESPN Cricinfo, PayPay, and others
- Owned iOS and Android architecture across projects — from offline-first systems and real-time sync to payment integrations

- Modularized codebases using clean architecture, reducing complexity and improving maintainability
- Led team of 15+ professionals, mentored engineers and conducted workshops on emerging mobile technologies
- Integrated performance monitoring and logging tools, resulting in significant improvement in app startup time and UX metrics
- Established CI/CD pipelines, testing frameworks, and mobile engineering best practices across teams

EDUCATION

B.Tech Computer Science & Engineering | MMMEC Govt. Engineering College, Gorakhpur, India
